

FOODLUBE CHAIN Spray

- Excellent penetration into rollers, links and pins to reduce wear and increase chain life
- Provides a highly adhesive lubricating film on the chain to avoid drips and fling-off
- Resistant to water wash off for maximum corrosion protection
- Anti-oxidant package boosts lubricant life, extending re-lubrication intervals and reducing lubricant consumption
- metal detectable cap and actuator to reduce risk of plastic contamination [DETEX](#)
- 21469 certified for full audit compliance ISO H1 registered & NSF
- [Certified HALAL](#)
- [Kosher Certified](#)

is a food grade aerosolised lubricant for chains, conveyors, pulleys and rollers in the food and other clean industries. **FOODLUBE Chain Spray**
Most wear on a chain occurs between the pins and rollers; where most chain lubricants just sit on the outer surfaces of the chain, FOODLUBE
CHAIN Spray penetrates into these components to ensure protection from wear, thereby extending chain life.
FOODLUBE Chain Spray exhibits high thermal stability, preventing sludge formation and varnishing on the chain.

NSF H1, ISO 21469 and Halal certified for full audit compliance and peace of mind.

*Tenacious, food grade chain spray lubricant for maximum chain life
