

SAPPHIRE Premier

PTFE Multi-purpose EP bearing grease fortified with

- Excellent extreme temperature resistance ranging from -50°C to +200°C ensures components are protected even on equipment working constantly in extreme sub-zero conditions.
- , provides outstanding high load performance.PTFE Lithium complex soap technology and EP additives, including Fully synthetic base oil leaves minimal residues providing long life even at elevated temperatures.
- Highly resistant to oxidation, providing extended lubrication intervals whilst reducing equipment failure, downtime and lubricant usage.
- Excellent corrosion resistance to protect in humid, damp and even wet conditions.
- Outstanding high speed performance for most applications found in industry.
- Premier reduces stick-slip on start-up ensuring a smooth SAPHIRE has an extremely low coefficient of friction and its inclusion in PTFE controlled movement.
- Prevents wear and corrosion on switchgear and electrical contacts to enhance performance.
