The V-cut range is a synergistic range of cutting fluids, hydraulic oils and a slideway lubricant designed to deliver excellent results.

V-cut is engineered to give maximum value to users whilst never compromising on performance due to its utilisation of the latest additive technology.

The V-cut technology is suitable for a wide range of metal working operations including turning, milling, grinding and drilling etc.

Suitable for ferrous and non-ferrous materials and with smaller pack sizes available V-cut is the ideal complete range for small to medium sized machine shops.

V-cut MP is a multi-purpose cutting fluid, a water mix fluid providing a milky emulsion designed to give excellent performance for all general purpose cutting operations.
