

Accu-Lube® LB-10000

Micro Metalworking Lubrication System

- Cleaner machining operations – reduced degreasing costs.
- Reduced fluid consumption.
- Manufactured from renewable sources.
- Natural base – non irritating, non toxic.
- Contains no – Biocide, Sulphur, Nitrite or Chlorine.
- Suitable for ferrous and non-ferrous materials.
- No waste disposal.
- Improved tool life.
- No component staining.

Description

ACCU-LUBE® LB-10000 is a premium performance micro-lubricant designed to be used in conjunction with the ACCU-LUBE® Micro-Lubrication system. It is formulated from a unique blend of highly refined natural base oils to provide "near dry" machining operations. ACCU-LUBE® LB-10000 is suitable for light to medium duty cutting operations on ferrous and non-ferrous materials.

The ACCU-LUBE® Micro-Lubrication system is a revolutionary approach to regulating the supply of lubricant to the cutting zone. The precisely controlled delivery maximises cutting tool performance whilst minimising fluid usage and reducing costs.

Applications

- Medium-duty sawing of non-ferrous metals.
- Medium-duty milling, drilling, tapping of ferrous and non-ferrous metals.

*Medium to heavy duty machining lubricant
