Description

Light to medium duty machining lubricant.

Accu-Lube® LB-4000 is a premium performance micro-lubricant designed to be used in conjunction with the Accu-Lube® Micro-Lubrication system. It is formulated from a unique blend of naturally derived base oils to provide "near dry" machining operations. LB-4000 is suitable for light to medium-duty cutting operations on nonferrous materials.

The Accu-Lube® Micro-Lubrication system is a revolutionary approach to regulating the supply of lubricant to the cutting zone. The precisely controlled delivery maximises cutting tool performance whilst minimising fluid usage and reducing costs.

Applications

- Light to medium-duty sawing of non-ferrous metals requiring post-heat treatment.
- Light-duty milling, drilling, tapping and punching of non-ferrous metals.

*Light to medium duty machining lubricant
