Description

Medium duty machining lubricant.

ACCU-LUBE® LB-5000 is a premium performance micro-lubricant designed to be used in conjunction with the ACCU-LUBE® Micro-Lubrication system. It is formulated from unique blend of highly refined natural base oils to provide "near dry" machining operations. ACCU-LUBE® LB-5000 is suitable for light to medium duty cutting operations on non-ferrous materials.

The ACCU-LUBE® Micro-Lubrication system is a revolutionary approach to regulating the supply of lubricant to the cutting zone. The precisely controlled delivery maximises cutting tool performance whilst minimising fluid usage and reducing costs.

Applications

- General machining and sawing of non-ferrous materials.

*Medium duty machining Lubricant
