#### Description

ANTI-SEIZE Spray is a copper-based, lead-free anti-seize aerosol, reinforced with graphite and molybdenum disulphide to further enhance its performance. Ideal for use in high temperature environments such as furnaces and exhaust systems, as well as dockside and oil rig applications.

ANTI-SEIZE Spray is designed for use on all static fasteners and mechanisms prone to seizure. This high performance compound is ideal as an assembly and anti-seize lubricant in extreme adverse conditions where pick-up and seizure issues may be experienced.
