

## ANTI-SEIZE Stainless

### Anti-Seize Paste Specifically Designed for Nimonic and Stainless Steel

- Excellent anti-seize properties over extended periods at high temperatures
- Provides even torque and prevents galling and pick-up on assembly
- Suitable for use with stainless steel, aluminium, nimonic and silver coated fasteners
- Protects against wet conditions and chemical attack
- Contains extremely low levels of chlorine and sulphur
- Temperature range of -40°C to +1000°C
- Coefficient of friction 0.085

### Description

ANTI-SEIZE Stainless is a nickel-free anti-seize paste specifically designed for stainless steel, nimonic and silver-coated fasteners, particularly those subjected to high temperatures for long periods in the aerospace, automotive and power generation industries.

ANTI-SEIZE Stainless does not contain copper and exhibits extremely low sulphur and chlorine levels, making it ideal for use on aerospace alloys.

### Specifications

- Rolls Royce MSRR 4008
- Rolls Royce OMAT 4/62
- Rolls Royce OMAT 10123 (spec for V2500)
- Rolls Royce COMAT 10-110
- Naval Cat No.: 0475-179-9539
- NATO Stock No.: 8030-99-179-9539
- BAE Systems approved for high nickel alloys
