Description

The new Contractor fusion semi-permanent spot and survey marking paints from Rocol were developed over a 12 month period. After comprehensive research and extensive field trials we worked with the people that use spot marking paints every day to formulate this unique product for the market.

Contractor fusion semi-permanent spot and survey marking paints support the social and environmental responsibilities of a corporate purchaser, minimising the Health and Safety risks for users without compromising the superior performance you will expect from a Rocol product. Many of the features are unique when compared against other spot marking paints on the market.

*High performance, semi-permanent spot and survey marking paint system.
