Description

A high quality, adjustable line marking paint applicator specifically designed for use with the EASYLINE EDGE range of paints. Ideal for use in small to medium size facilities, the EASYLINE EDGE system allows sharp, durable, defined lines to be marked quickly in warehouses, car parks, playgrounds and on other hard flat surfaces without the requirement for experience, special tools or external contractors.

Battery-powered Airflow System produces sharp, cleanlines

- New and unique Masking plates with Silicone Brushes
 - Even better edge definition and quality.
 - Paint flow is managed consistently for trouble free marking over long distances
 - Non-stick design can be cleaned without solvents.
- Adjustable rear stabilisers with three possible configurations:
 - Wide: for straight line stability
 - Inline: New freehand marking feature allows the creation of curves (minimum radius 0.6 metres)
 - Curb side: Mark straight lines close to a curbs or racking. (within 70mm)
- Now even better over rougher surfaces
 - Wider Track for greater stability
 - Deep rubber tyres all-round
 - Vibration damping in rear wheels
 - Greater ground clearance
- Fully Adjustable line width function. All line widths possible between 50mm, and 100mm. (Width setting accuracy +/- 3mm)
- Rocol's EASYLINE® EDGE Applicator is quick to assemble and simple to use – no specialist equipment or knowledge required.
- Supplied in a heavy duty carry case for safe storage and transit.
- Masking plates are available to order as a replaceable part

The yellow nozzle must be used for marking out lines with the EASYLINE Edge Applicator-unique interlocking shape.

The white nozzle must be used for stencilling/free marking in the hand held applicator.

The EASYLINE® EDGE Applicator and paint are sold separately.

PLEASE NOTE – The EASYLINE® EDGE Applicator is specifically designed for use with EASYLINE® EDGE Aerosol Line Marking Paint 750ml – NOT compatible with other aerosol brands.

*The world's leading line marking paint applicator.
