

FOLIAC GRAPHITE

Foliac high pressure pipe sealant with graphite and manganese

- Excellent temperature range from -20°C to +600°C.
- Resist pressures of up to 193 bar (2800 psi).
- Joints sealed are easy to break and clean.
- Sets hard but is flexible enough to resist vibration, thermal expansion and contraction of pipework.
- Compatible with foam forming leak testers such as Rocol Leak Detector Spray.
