

## FOODLUBE® Auto SF

### High performance, food grade, semi-fluid grease

- Offers excellent wide temperature resistance of -20°C to +150°C.
- White appearance gives good visibility in translucent pipework to allow easy checking that the system is dispensing correctly.
- Provides a tenacious, EP film with excellent water wash off resistance and corrosion protection.
- Excellent stability resulting in extended relubrication intervals and a reduction in lubricant usage.

#### Description

FOODLUBE® Auto SF is a low solids, semi-fluid, non-toxic lubricant for use where NSF H1 lubricants are required.

FOODLUBE® Auto SF has been particularly designed for use in automatic lubrication systems commonly found in the food, pharmaceutical and other clean industries.

It is ideally suited for use on equipment that has been fitted with small bore lubrication pipework, or those fitted with long pipe runs, where blockages can cause lubricant starvation which can result in premature failure of the lubricated components.

\*High performance, food grade, semi-fluid grease
