Description

PR Spray is designed to give fast, efficient clean release in critical moulding applications. It penetrates and spreads to all parts of the most intricate mould to give full, clean release, with improved gloss finish.

PR Spray gives a fine, controlled spray with complete coverage for maximum economy. Use on all types of blow, injection, flow and compression moulding, particularly on complex tooling. Helps overcome difficulties encountered during setting and start up.

PR Spray provides a gloss finish, the nature of the gloss finish is not suitable for painting or printing on the surface, please see [MOULD RELEASE Spray](#) for an alternative dry film product which is suitable to printing and painting on.

*Long lasting silicone spray mould release
