

RAPIDSEAL

FOLIAC Rapid-Curing Pipe Sealant for Universal Applications

- Has an excellent temperature range from -50 °C to +150°C.
- Can resist pressures up to 1000 bar (14,500 psi).
- Suitable for use with natural gas and LPG pipework – conforms to EN751-1.
- Suitable for use by registered gas installers.
- Thread locking action – eliminates vibration induced loosening.
- NSF P1 listed and therefore acceptable for use in and around a food processing areas as a pipe sealant.
- WRAS (Water Regulations Advisory Scheme) approved material for use in contact with drinking water.
- Replaces traditional paste/hemp combinations.
- Supplied in a convenient precision applicator which minimises waste, whilst its thixotropic nature reduces drips during application.
