Description

Viscous fluid containing extreme pressure additives for use in reaming, tapping, drilling and other metal cutting operations.

Suitable for all metals including hardened steels, titaniums and nimonics, significantly reducing friction giving superb cutting performance.

Can also be added to ordinary mineral cutting oil for the most severe cutting operations, such as broaching and gear cutting on the toughest metals.

*RTD is a reaming, tapping and drilling lubricant which has been specifically formulated to double tool life.
