

SAPPHIRE Aqua 2

Multi-purpose water resistant EP bearing grease

- Very good temperature resistance – ranging from -20°C to +150°C.
- Excellent resistance to water, including salt water ensuring components are protected even in submerged conditions.
- Aluminium complex soap technology and EP additives provide outstanding high load, extreme pressure performance superior to standard soap thickened lubricants.
- SAPPHIRE Aqua 2 has good resistance to oxidation, providing extended lubrication intervals whilst reducing equipment failure, downtime and lubricant usage.
- Excellent corrosion resistance to protect in humid, damp and even wet conditions.
- The tacky nature of SAPPHIRE Aqua 2 ensures it adheres strongly to components to resist water wash-off and even tidal flow in salt water environments.
