Description

The V-cut range is a synergistic range of cutting fluids, hydraulic oils and a slideway lubricant designed to deliver excellent results.

V-cut is engineered to give maximum value to users whilst never compromising on performance due to its utilisation of the latest additive technology.

The V-cut technology is suitable for a wide range of metal working operations including turning, milling, grinding and drilling etc.

Suitable for ferrous and non-ferrous materials and with smaller pack sizes available V-cut is the ideal complete range for small to medium sized machine shops.

V-cut SS is a semi-synthetic dual purpose cutting and grinding fluid; a water mix fluid providing a translucent green emulsion designed to give excellent performance for all general purpose cutting & grinding operations.

*Value-Engineered Semi-Synthetic Cutting & Grinding Fluid
